Seattle, WA 98119

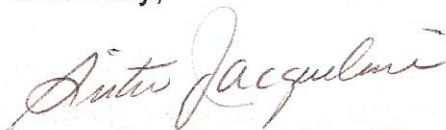

Dear Karen,

I think you would be very pleased to hear the comments of the sisters and staff here at St. Joseph Residence and of our visitors about the renovated Chapel. Everyone appreciates the new look with the comfortable chairs, ease of access to the sanctuary with the ramp, and how bright and beautiful it looks. With the chairs, there is space for our walkers and scooters and the "parking lot" in the back of the Chapel is no longer needed. Having them right next to us enhances our independence for which we are grateful.

Thank you for working with us to make the Chapel a place conducive to worship and prayer and a place that works well for seniors. We are enjoying the lovely colors that pick up the colors from the stained glass windows. You certainly listened well and then designed a space that is very special, the heart of our home.

We are very grateful to you for a project well done. We look forward to worshipping in our Chapel for years to come in comfort and peace. You may be sure that you are included in our prayers as a special benefactor. May God bless you for your contributions to the success of this special project.

Gratefully,

Jacqueline Fernandes, SP
Superior, St. Joseph Residence
And the Sisters and Residents and Staff
